Wireless IP Camera Bundle Starting from only S\$888

Enhanced Benefits:

- User friendly & future-proof integration
- Cut cost by cost savings on wirings as coaxial cabling is more expensive than Ethernet cabling
- Cost-effectiveness: network video system allows user to incorporate open PC systems & open storage with video management software, which gives 20% cost savings compared to DVRs
- Wireless networking, scalability & flexibility
- Lower ownership cost: if an IP infrastructure is installed, the network video system is always lower in cost

Enhanced Features:

Wireless IP Camera:

- MPEG-4 compression format
- 2-way audio & dual streaming
- Small compact size, wireless
- Supports mobile phone, PDA, 3GPP

Wireless AP Router:

- IEEE802.11b/g compliant, NAT router
- Built-in 4 port 10/100 switch, & port forwarding
- Universal Plug & Play
- Built-in Firewall
- Supports PPPoE function
